

This week we are celebrating nature which is one of my favorite things to celebrate. Nature is so fun and diverse and there seems to always be new opportunities to learn about nature. Another reason I love celebrating nature is because everything humans have ever needed to survive, and thrive, was provided by the natural world around us: food, water, medicine, materials for shelter, and even natural cycles such as climate and nutrients. Below you will find some trivia activities that will allow you to celebrate nature with us.

I have provided a word bank below which you will use to fill in the blanks of each sentence. Note: Each word is only used once! Enjoy!

Plants need \_\_\_\_\_ to survive.

The Grand Canyon is located in \_\_\_\_\_.

If you see a plant starting to wilt you should give it more \_\_\_\_\_.

Plants breathe \_\_\_\_\_.

The 3 r's of recycling are \_\_\_\_\_, \_\_\_\_\_, & \_\_\_\_\_.

You might find this animal in soil. A \_\_\_\_\_.

Large \_\_\_\_\_ have as many as 25,000 feathers.

Bears would prefer to live in a \_\_\_\_\_

What do we call an animal that hunts and eats other animals? A \_\_\_\_\_

In April of 2011 \_\_\_\_\_ tornadoes occurred in the United States.

\_\_\_\_\_ is the best earth material to plant flowers in.

The outside layer of the earth is called \_\_\_\_\_

The next time you go for a walk be sure to use our scavenger hunt sheet to discover all the nature right in your neighborhood.

## Nature Scavenger Hunt

Trivia answer key:

Plants need water to survive.
